## Local contractors get top honors for remodeling projects

BY MARILYN CAMPBELL  
THE CONNECTION

From designing a kitchen with a concave glass tile backsplash to creating a backyard with a fireplace and pool, some local home remodelers were honored recently with the National Association of the Remodeling Industry's (NARI) 2013 Regional Contractor of the Year awards for design acumen. Winning projects ran the gamut from historic preservation projects to environmentally conscious conceptions.

**HARRY BRASWELL** of Harry Braswell, Inc. in Alexandria, was named Contractor of the Year in the "Entire House \$500,001 to \$1,000,000" category for the renovation of a home that had not been updated since the 1950s. "The house was outdated, too small for the family's needs," he said.

The renovation included a kitchen outfitted with cabinet-front appliances and porcelain sinks including an apron farm sink and an island sink in a pale aqua. "That color is carried throughout the house," said project manager Gretchen Brown.

A concave glass tile backsplash surrounds the durable, brown-toned quartzite counter. "Quartzite doesn't stain easily," said Brown. "It is strong like granite, but is more expensive."

The Braswell team also got a nod for energy efficiency for this project, which was named "NARI Green Project." Brown noted that the team installed energy efficiency lighting and energy star appliances.

"The homeowners had specific criteria about wanting to meet [Leadership in Energy and Environmental Design] certification because they are dedicated to protecting the environment," said Braswell.

**CABIN JOHN, MD., BASED** firm Anthony Wilder Design/Build, Inc. received kudos in the "Residential Exterior, \$100,000 and Over" category for a back-

yard space that includes a pool and fireplace. "The homeowner wanted four separate living spaces in the backyard," said company spokeswoman Danielle Frye. "He wanted a dining room, a living room with a heat source, a place to sunbathe near his pool and a place to play cricket on his lawn."

Frye said the Wilder team, which included architect George R. Bott and lead designer Anthony Wilder, developed a backyard plan that replaced overgrown grass with flagstone and a badly worn fence with foliage to create a sense of privacy. "There is a sundeck and spaces for a sofa and dining table, but the fireplace is the focal point," said Frye. "We used really tall bamboo to shield the view from the hotel across the street."

**A BETHESDA HOME ADDITION** garnered a top prize in the "Residential Addition Over \$250,000" category for A.R.T Design Build Inc. with team member Grossmueller's Design Consultants, Inc.

"The client wanted to expand their one story house to have a separate area for [bedrooms] and create a more functional first floor with more communal spaces, the kitchen, family room [and] dining room," said Cindy G. McClure of Grossmueller's Design Consultants, Inc.

The design team added a new second floor to the home, which accommodates a laundry room, a master suite, two additional bedrooms and a bathroom. A stair tower and cathedral foyer create an open floor plan and connect the first and second levels.

"Elements of the old house, like the wide chimney on the front and the contemporary 1960 style were played upon and accentuated," said McClure. "The result is a functional home that meets the needs of today's family, remained within budget and was completed on time."
